Career Objective

I am **Prasanna**, a **Computer Science** student specializing in **Artificial Intelligence and Machine Learning**, with an intermediate level of proficiency in **Python** and a keen interest in learning **SQL**. I have built projects like an **Expense Tracker Web Application** using web technologies and an **AI chatbot** using **LLMs** on **Hugging Face**. Passionate about **Python development**, I aim to grow as a skilled **Python Developer** in the tech industry.

Internships

Swetcha Summer Internship (IIIT-H Collaboration) May 2024 – June 2024

- Developed a Telugu Language Model, enabling automated language understanding and speech generation.
- Worked with Meta's LLaMA model for training, fine-tuning, and testing to improve performance on Telugu text tasks.

AICTE – Google AI-ML Virtual Internship April 2024 – May 2024

- Gained hands-on experience in AI/ML by preparing data, building features, training models, and evaluating performance.
- Improved model accuracy and managed deployment with real-time monitoring.

Projects

Expense Tracker Web Application (Flask + MongoDB)

- Built a full-stack Expense Tracker using Flask, MongoDB, and HTML/CSS for managing income and expenses.
- Implemented secure transaction features, allowing users to add, edit, delete, and view transactions with a real-time dashboard.
- **Tools Used:** Flask, Python, MongoDB Atlas, HTML, CSS.

AI Chatbot using LLMs (Hugging Face Transformers)

- Developed an AI-powered chatbot using Hugging Face LLMs to handle natural conversations and answer queries.
- Delivered an interactive chatbot with accurate, context-aware responses for real-time user engagement.
- **Tools Used:** Hugging Face Transformers, Python, Flask, HTML, CSS.

Skills/Traits

Programming Languages: Python, HTML, CSS

Tools: VsCode, Git

Database: MongoDB

Soft Skills: Team Collaboration, Time Management, Effective Communication, Adaptability and Problem-Solving

Certifications

- Foundations of Modern Machine Learning – **IIIT-H**
- Salesforce AI Certification – **Integrating AI with Salesforce**
- Front-End Web Development – **Infosys Springboard**

Education

Kakinada Institute of Engineering and Technology for Women

Oct 2022 – May 2026

B.Tech in Computer Science with Specialization of Artificial Intelligence and Machine Learning

- CGPA: 8.38 / 10.0
